KAYAK FISH ING

In the past several years kayak fishing has become a huge sport. People can be seen fishing from kayaks on coastlines, rivers, bays and inlets around the world. Anglers enjoy the quiet access offered by a kayak; they also appreciate the ease of transporting a kayak as opposed to a larger rowboat or powerboat. Popularity has grown in part due to the ease of entry into the sport. Especially compared to powerboats, fishing kayaks can be purchased inexpensively and have few maintenance costs.

They can be stored in small spaces and launched quickly. Most designs offer great stability and ease of maneuverability. The new generation of twinhull (catamaran) kayaks recently introduced into the market is stable enough to enable both paddling and fishing in the standing position. Anglers don't have to remain in a seated position for hours on end, and increased visibility from the standing position means more fish.

There are also kayaks propelled by flippers or propellers and a foot mechanism. These kayaks offer hands-free fishing and all the benefits associated. Some kayak manufacturers offer special models for fishing that are designed and accessorized for this sport, including specially-designed hatches, built-in rod holders, catch bags and equipment mounts.

JACKSON KAYAK | CUDA LT REALTREE

What if Jackson Kayak’s top selling fishing kayak was able to get even better? Well, the Cuda LT is virtually a lighter-weight carbon copy of the Cuda 12 thanks to “thermoforming” technology. The LT version is also sleeker aesthetically and due to the lighter weight it is slightly higher performing and a little more stable than the original Cuda 12. This new version maintains the deck features that everyone loves from the Cuda 12 - central hinging hatch, rod for various rod and tackle storage options and adds a couple new features, including new YakAttack tracks for and aft!

JACKSON KAYAK | COOSA HD PRO

Jackson Kayak’s top design team again teamed up with pro kayak angler, Drew Gregory, to put an “HD” twist to the already popular Coosa model. This ‘heavy duty’ fishing craft boasts amped up specs/features and is slightly longer and wider than the original Coosa; this makes it even more stable and a perfect fit for anglers of all sizes or those who are really looking for a stand up fishing kayak. The hull is still river friendly, but the HD will track truer on the flat waters. The Pro Version comes decked out with tournament ready features!

JACKSON KAYAK | KRAKEN 13.5

A natural follow up to the first collaborative design between legendary kayak angler, Jim Sammons and Jackson Kayak's design team. The new Kraken 13.5 is a boat shaped and built to accommodate those hitting the open water, in a nimble, smaller footprint, but still capable of big water management. It's designed for punching through surf, handling rough offshore currents, swells, beach landings and those who desire ultimate performance and maneuverability while chasing big fish. The Elite Version has all the features of the standard version with some additional fishing features for those looking to get a more fishing ready kayak.

JACKSON KAYAK | SKIPPER

With the Skipper, we've designed its hull with the youth fisherman in mind, making it narrow enough so they can easily keep up without getting too worn out or frustrated. It also offers a stable enough platform for standing while casting just like mom and dad. It's no secret that our kids look up to us and this is why we've made the Skipper mirror our larger models with standard Jackson Kayak features. Recommended for anglers in the 50 to 125lb range, which still includes many teens, college students, women and men that are wanting that smaller, nimble kayak.

GUMOTEX | HALIBUT

HALIBUT is a new inflatable fishing kayak, offering a new type of angling adventure. It is possible to enjoy fishing even in hard-to-reach, remote locations. Experience a struggle with the quarry near the water surface. The kayak is very stable but sufficiently agile and fast when moving on the water. The bottom of the boat has a solid floor enabling a stable stance for angling. A high-standing adjustable seat guarantees comfort during embarking, disembarking and waiting for a catch. Then pack everything into a bag and take it away with you on your back or in the trunk of your car.

ATLAS JACKET

On and off the water, the Atlas is a flagship multi-sport jacket. Styled for the outdoors, with a low-profile fit, front vents and a paddling specific cut across the shoulders. Cut a little longer in the back to suit paddling posture, which also works well for other sports. A simple ExoSkin inner wrist seal saves you from that rush of water down your sleeve when you tip your kayak up onto your roof rack. Made from lightweight breathable 2.5-layer fabric, the Atlas packs down small to stow away for unexpected showers.
